Published: 23 Dec 2008 - 23:44

Looking back at the first year of the ict@innovation programme, we have updated the "[Activities](#)" section with an overview of programme milestones in 2008, and a brief outlook for next year. A [summary of the outcomes of the FOSS certification planning workshop](#) is one of the new pages added.

We would like to thank all of you, who have contributed to make the programme initiatives possible and successful. We wish all site visitors a very happy and merry Christmas, Season's Greetings and a happy New Year. Best Wishes for 2009!
